

**Tier 1 – Machine Learning in
Weather & Climate**

up to 13 h 30 min

**Tier 2 – Concepts of
Machine Learning**

up to 12 h

**Tier 3 – Practical Machine
Learning applications
in Weather & Climate**

up to 14 h 30 min

Certificate of Completion

George Miloshevich

has successfully completed the

MOOC Machine Learning in Weather & Climate

(up to 40 hours)

January – April 2023

organised by
the European Centre for Medium-Range Weather Forecasts (ECMWF)
in partnership with
the International Foundation Big Data and Artificial Intelligence
for Human Development (IFAB)

Florence Rabier
Director General of ECMWF

Francesco Ubertini
President of IFAB and CINECA
